

Helsingborg 28th October 2008

REACH Compliance Statement

The European Regulation (EC) 1907/2006 concerning Registration, Evaluation, Authorisation and Restriction of Chemicals (REACH) entered into force in June 2007. REACH affects all industries and it is important that all actors perform necessary actions to avoid disturbance in the supply chain. If a substance or preparation does not fulfill the requirements according to REACH the substance or preparation cannot be sold. Pre-registration of substances or preparation may be a necessary step to consider for actors on the market.

As a consequence AB Elektrokoppar has taken several actions into account to fulfill all requirements according to REACH. We have pre-registered the substances we need for our products. To be able to have a complete supply chain we have contacted the suppliers and asked for their REACH compliance.

Please contact us if you would need further information regarding our REACH compliance.

Yours Sincerely,

Jonas Ciardi
Quality and Environmental Manager
AB Elektrokoppar
